FOR GROWN-UPS

What this sheet practices

- The same number twice is a double.
- Double 4 is 8.
- Double 4, then one more.

REMEMBER IT

Know your doubles, then add one more for the number next door.

How to help

- Use real things: an egg box with ten cups is a ten-frame. Ask “how many more make ten?” before “what's the answer?”
- Do the lesson in the app first, then the sheet. Check it together with the answer key, and count out any answer that slipped with real things: buttons, pasta, fingers.
- The code 1234 is on the sheet and on its answer key, so the two pair up. New version deals new numbers.
