FOR GROWN-UPS

What this sheet practices

- Share 6 into 2 equal groups.
- Each group gets 3.

REMEMBER IT

Share it fair: one each, round and round.

How to help

- Share real things out one at a time, like dealing cards, until they're all gone. Each plate's share is the answer.
- Do the lesson in the app first, then the sheet. Check it together with the answer key, and count out any answer that slipped with real things: buttons, pasta, fingers.
- The code 1234 is on the sheet and on its answer key, so the two pair up. New version deals new numbers.
