FOR GROWN-UPS

What this sheet practices

- A rod is 10 ones stuck together.
- 3 tens and 4 ones make 34.

REMEMBER IT

Count the rods, then the ones.

How to help

- Bundle straws or pencils in tens with a rubber band: ten ones become one ten. Read two-digit numbers as tens and ones.
- Do the lesson in the app first, then the sheet. Check it together with the answer key, and count out any answer that slipped with real things: buttons, pasta, fingers.
- The code 1234 is on the sheet and on its answer key, so the two pair up. New version deals new numbers.
