FOR GROWN-UPS

What this sheet practices

$3 \times (2 + 5)$
$= 3 \times 7$
$= 21$

- Do the part in brackets first.
- 2 + 3 = 5, then 5 × 4 = 20.
- 2 + 5 = 7, then 3 × 7 = 21.

REMEMBER IT

Brackets first, then the rest.

How to help

- One step at a time, written down: brackets first, then times and divide, then plus and minus from left to right.
- Do the lesson in the app first, then the sheet. Check it together with the answer key, and count out any answer that slipped with real things: buttons, pasta, fingers.
- The code 1234 is on the sheet and on its answer key, so the two pair up. New version deals new numbers.
