FOR GROWN-UPS

What this sheet practices

- Line them up to compare.
- The extra ones are the difference: 4.

REMEMBER IT

Line them up. The extras are the difference.

How to help

- Act it out: take away real things and count what's left. Then ask it as addition: "4 and what make 9?"
- Do the lesson in the app first, then the sheet. Check it together with the answer key, and count out any answer that slipped with real things: buttons, pasta, fingers.
- The code 1234 is on the sheet and on its answer key, so the two pair up. New version deals new numbers.
