What this sheet practices

- These three numbers are a fact family.
- Think: 3 and what make 8?
- Think: 5 and what make 12?

$5 + 7 = 12$ $7 + 5 = 12$

$12 - 5 = 7$ $12 - 7 = 5$

REMEMBER IT

Stuck on minus? Think plus.

How to help

- Act it out: take away real things and count what's left. Then ask it as addition: "4 and what make 9?"
- Do the lesson in the app first, then the sheet. Check it together with the answer key, and count out any answer that slipped with real things: buttons, pasta, fingers.
- The code 1234 is on the sheet and on its answer key, so the two pair up. New version deals new numbers.
