What this sheet practises

- Music uses just seven letters: A, B, C, D, E, F, G.
- After G, the letters start again at A.
- Going right, the letters go up and the sound gets higher.

How to help

Find the keys on a real piano or keyboard together: the black keys in twos and threes are the map. Ask your child to name a key, then press it.

Do the lesson in the app first, then the sheet. Check it together with the answer key, and play any note that slipped on a piano or in the app.
